

Intended use

Mipa Kreidespray is a fast drying special paint for temporary marking work with a large range of applications e.g. at various events, trade fairs, temporary parking spaces, reconstructions, etc. The environmental friendly compatibility allows the application of Mipa Kreidespray also in sensitive fields such as horticulture and landscaping. Depending on the strain, the marking is removed by rain and mechanical action after a few days or weeks.

Processing instructions

Substrates

Stone, concrete, etc.
Also suitable for absorbent and damp substrates.

Pre-treatment / cleansing

If possible, the substrate should be clean and free of grease.

Characteristics
